Canadese titel voor Larry Sharp en in de top tien van de wereld met behulp van SUNRIDER producten.

Canada Middle Weight Champ is working toward World title with Sunrider "under his belt."

Larry Sharpe of Pine Falls, Manitoba, Canada, is an amazing boxer. You don't become the Canadian Middle Weight Champ and win 18 of 22 fights unless you are very talented. Even exceptional athletes can benefit from an edge though, and Larry's edge is the inclusion of Sunrider foods in his diet. Larry was winning before he started consuming Sunrider foods, but he has noticed a definite difference in his performance and recovery lately.

Larry first noticed his hands were not as sore and that he recovered much more quickly and had more sustained energy when training. He normally struggles to achieve his pre-fight weight and has never gotten below 160 lbs. He usually gets sick before a fight because of the intense training while starving himself.

When starting on the Sunrider foods, Larry dropped to his fighting weight without too much effort. The fight officials from his last bout in Toronto were puzzled as to how he got to 153 lbs., his lowest career fighting weight.Larry added **Top®** and **Ese®** to his usual training program of **NuPuffs®**, **NuPlus®**, **Calli®**, **Fortune Delight®**, **Sunrise®**, and **SportCaps®**. An athlete is normally under stress before a fight, and Larry says things can be a little fuzzy when walking into the ring. With Top® and Ese® though, Larry was totally focused and relaxed—the other fighter never had a chance.

Larry was considering retiring if he lost his last fight in Toronto. With this win though, he has moved into the top ten Middle Weight boxers in the world and has the potential to win huge sums of money. He holds the WBA's NABA belt and is now working towards World Middle Weight Champion. With his talent and good Sunrider foods "under his belt," we know he will go far.
